## Questions and Answers

**Q:** What do I have to do?

**A:** Simply designate someone to gather the flowers you would like to use in your stationery (bridal bouquet, bridesmaid's bouquets, or any other flowers used in the wedding or at the reception). Cut the stems from the bud, leaving approximately 1" of the stem intact.

**Q:** How do I get my flowers to you?

**A:** After you place your order, you will be sent a postage paid shipping kit which will include simple instructions, an info form, and everything you need to get your flowers to us. Include the form with your flowers in the pre-paid envelope. Send as soon as possible. The fresher, the better!

**Q:** How long does it take?

**A:** Completed orders ship within 10 working days of receipt of your flowers.

**Q:** What types of flowers can be used?

**A:** All types of flowers and foliage can be processed, some maintain their exact color, while others will change slightly or turn a natural color -- sometimes bleeding occurs giving the paper a marbled effect.

**Q:** How many flowers do I need?

**A:** 1.5 pounds of flowers yields at least 150 cards; or 25 med. carnations yields 100 cards; 25 large roses yields 125-150 cards. All flowers vary in weight.

**Q:** What is the size of the note card?

**A:** The folded size is 5.5" wide and 4.25" deep (A2 Envelope Size).
